

PROFILE SUMMARY

Senior Data Engineer and Data Warehousing Consultant with 5.9+ years of experience delivering cloud-native data platforms, data warehouses, ELT pipelines, and analytics solutions for U.S. and European clients. Experienced in partnering with business and technical stakeholders across client discovery, requirements gathering, solution design, project scoping, effort estimation, and end-to-end delivery using **Snowflake, AWS, Python, SQL, and dbt**. Combines hands-on data engineering expertise with technical leadership, stakeholder communication, data governance, and executive reporting to deliver scalable data solutions and measurable business outcomes.

SKILLS

Consulting & Delivery	- Technical Solutioning, Project Scoping & Estimation, Stakeholder Management
Data Engineering	- ETL/ELT, Data Modeling, Data Quality, Tasks, Streams, dbt, Dimensional Modeling, Change Data Capture
Cloud	- Snowflake, Snowpark, Streams, Tasks, Time Travel, AWS (S3, IAM, Redshift, Lambda), Databricks
Programming & Data	- Python, Pandas, NumPy, Snowpark, SQL, Performance Tuning, Data Warehousing
Analytics & BI	- Power BI, Looker Studio, Snowsight, Tableau
Dev & Collaboration	- Git, GitHub, JIRA, Agile
AI & GenAI	- Generative AI, Prompt Engineering, LLM Applications, Snowflake Cortex AI, AI-Assisted Development

EXPERIENCE

MASSIVE ROCKET INDIA, Pune, MH - *Senior Data Engineer* - July 2024–Present

(Global martech consultancy delivering Data & CRM solutions for growth-stage and enterprise clients across the U.S. and Europe)

- Coordinated delivery across **concurrent client initiatives**, communicating priorities, dependencies, progress, and technical risks.
- Led **client discovery, requirements gathering, project scoping, SOW preparation, and effort estimation** for data initiatives.
- Architected and delivered **5+ Snowflake data platforms** supporting API, batch, and event-driven ingestion at scale.
- Designed dimensional and domain-based models, improving BI and CRM query performance by **30–50%**.
- Optimized queries, schemas, and workloads, reducing **Snowflake compute costs by ~40%**.
- Built production-grade **Python (Snowpark) and SQL pipelines** with idempotency and failure recovery, reducing reprocessing by ~40%.
- Implemented CDC using **Snowflake Streams and Tasks**, improving incremental processing and reporting data freshness.
- Designed **data quality and audit frameworks** supporting pipeline reliability, governance, and compliance reporting.
- Built **20+ dbt models** with testing, source definitions, and lineage to improve governance and analytics delivery.
- Served as **data lead**, managing work allocation, code reviews, technical decisions, and mentoring team members.
- Coordinated delivery across concurrent client initiatives, communicating priorities, dependencies, progress, and technical risks.
- Built **10+ executive-facing dashboards** translating complex data into actionable business and operational insights.
- Developed CDP-ready data layers powering **Braze** for customer segmentation, lifecycle campaigns, and activation.
- Used **GenAI tools and Snowflake Cortex** for SQL optimization, debugging, root-cause analysis, and documentation.

CAPGEMINI INDIA, Pune, MH - *Associate Consultant* - November 2020–July 2024

- Partnered with **U.S.-based clients and stakeholders** to translate business and reporting requirements into technical solutions.
- Designed and optimized Snowflake **fact and dimension models**, improving analytics query performance by 30–40%.
- Leveraged **SnowSQL and Snowflake Time Travel** for validation, rollback, and recovery, reducing data downtime by 30%+.

- Delivered **Tableau and Power BI dashboards** consumed by business and leadership teams
- Supported **Agile** delivery across multiple projects and stakeholders to consistently meet tight SLAs.
- Developed **Python (Pandas, NumPy) scripts** to perform automated data analysis and segmentation on large lending datasets.
- Built data schemas, ETL mappings, and SOPs to support client communication and knowledge transfer across distributed teams.

PROJECTS

- **Omnichannel Customer 360 & Activation Engine** – Architected a Star Schema-based Snowflake **Customer 360** platform consolidating fragmented API data into a **Golden Record** for **700K+ users**. Engineered a Python Reverse ETL pipeline to sync refined segments into Braze, automating real-time customer activation
Tools: Snowflake (Star Schema), dbt, Python, REST APIs, Braze.
- **Data Transformation & Reporting for Hospitality Martech** - Automated **cross-client revenue and engagement reporting** by integrating **Snowflake with REST APIs**, saving **~1,000 manual working hours** and ensuring consistent, standardized metrics. Delivered **executive-facing dashboards** with optimized SQL transformations, improving reporting accuracy and decision-making speed.
Tools: Snowflake, SQL, Python, Looker Studio, Braze REST API
- **AI-Powered Data Catalog & Documentation Framework** - Built a **Snowflake Cortex AI**-powered metadata and documentation framework that automatically generated business-friendly documentation for data warehouse objects, data models, metrics, and lineage information, **reducing manual documentation effort by 80%** and **improving governance** and data discoverability.
Tools: Snowflake Cortex AI, Snowflake, SQL, Python, Information Schema, Data Lineage

EDUCATION

- **B.Tech (Information Technology)** *Jun '16–Jul '20*
Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore, MP

CERTIFICATIONS

- **AWS Certified Data Engineer - Associate** - By Amazon Web Services (*March '26*)
- **SnowPro Core Certificate** - By Snowflake (*September '25*)
- **Braze Certified Technical Architect** - By Braze (*April '25*)
- **Braze Certified Developer** - By Braze (*November '24*)
- **Data Analysis with Python** - by IBM Developer Skills Network (*May '23*)

ACHIEVEMENTS

- **RISING STAR AWARD** - Received Rising Star Award in Q1 in the Year 2021 (*Capgemini*)
- **STAR OF THE MONTH** - Received Star of the Month Award for performance in Q4 - 2022 (*Capgemini*)
- **HERO OF THE MONTH** - Received Hero of the Month Award for performance in Q4 - 2025 (*Massive Rocket*)
